Minimum Academic Entry Requirements for International Students

Wintec™
WAIKATO INSTITUTE OF TECHNOLOGY
New Zealand

- These are the minimum academic entry requirements for international students applying to enrol at Wintec. Additional entry requirements may apply depending on the programme that is chosen and students will need to meet any other entry requirements (e.g. English language requirements) as outlined in the Tikanga-ā-Ākonga Academic Regulations at Wintec and regulations for their chosen programme(s).
- All student applications are considered on a case-by-case basis and final decisions are made by the Heads of School, Centre Directors or their designated equivalent under delegated authority by the Academic Board. Guidance should be sought from the Dean for any major variations.
- For academic arrangements, decisions on admission and entry are agreed to by the relevant Head of School / Centre Director as part of the contract process. Any variations to the minimum academic entry requirement for a specific institution must be signed off by either the Dean or Senior Advisor as part of the contract negotiations. All variations must be reported to the relevant Programme Committee(s) and to the Academic Approvals Committee.
- Qualifications not listed below will be considered on a case by case basis. Where a s pace is blank, a qualification that meets the minimum standard at that level has not been identified.
- A "recognised tertiary institution" is defined as one listed either on UK Naric or similar internationally recognised database (e.g. AEI-NOOSR); or one that is accredited by a national accreditation or governing body.
- "Undergraduate" is defined as equivalent to levels 5 – 7 on the New Zealand Qualifications Framework.

Country/ Region	Certificate (level 4) Duration		Diploma (level 5)		Degree level	Last updated
	Academic	Vocational/Technical	Academic	Vocational/Technical		
Argentina	Título de Técnico Auxiliar		Título de Bachiller / Bachillerato OR Trayecto Técnico Profesional		One year successful undergraduate level study at a recognised tertiary institution.	26 February 2021

UK Naric and AEI-NOOSR provide information and advice on worldwide vocational and academic qualifications and profiles of education systems worldwide. Each country's profile includes an extensive (but not comprehensive) list of institutions. These lists are a good starting point for verifying a tertiary institution's standing. Many countries also have their own national accreditation bodies which have responsibility for quality assurance of tertiary programmes and (in some cases) for accrediting tertiary institutions. Countries not included below may have accreditation bodies; however, they do not have a web presence; do not provide information in English; do not accredit tertiary institutions; or do not list accredited institutions on their websites. A country's Ministry of Education or equivalent may be a good source of information on approved tertiary institutions.
