Estimated living expenses for Wintec academic year

Private flatting (average, including contracted rental weeks on a standard 52 week contract)*	Wintec Student Village (42 weeks)	Wintec Apartments (44 weeks including food)
\$15,936	\$13,860	\$15,400

Flatting expenses calculation

	Weekly \$	Weeks	Annual
Weekly rent (12 month contract)	195	52	10,140
Other outgoings (during semester)	138	42	5,796
Total	\$333		\$15,936

Notes:

Many private rentals require 52 week rental agreements to be signed (whether the flat is occupied or not). Wintec accommodation options are rented on a 42 or 44 week contract to cover semester periods, and therefore students are not required to pay for a full calendar year period.

Flatting may also incur hidden costs, such as:

- Bonds for electricity
- Costs involved in finding a flat
- Costs for supplying furniture
- Money for appliances in kitchen and breakdowns
- Travel and parking expenses

When you take into consideration weeks when the flat is likely to be occupied (during term time), the cost of flatting compared with Wintec accommodation is very similar. Wintec accommodation has additional benefits.

When all expenses are considered, the cost of Wintec accommodation with its many all-inclusive elements is very competitive with private flatting arrangements.
