1. Purpose & Scope

A clear parking policy is required to ensure a fair and enforceable system for the control and allocation of parking spaces. With limited parking available we actively encourage users to adopt other means of transport.

This policy applies to all Wintec students, staff (including staff working in subsidiaries), contractors, consultants or any other person engaged by Wintec to conduct business on our behalf, and visitors to our Campuses.

Please note that information about student transport and parking options can also be found under [student resources on our public website](#) along with a copy of this policy.

2. Policy Statement

Parking on the City and Rotokauri Campuses is controlled by a permit and payment system with designated parking areas for students and staff. Visitors can park for up to two hours for free in designated visitor parking, while longer term reserved parking can be booked via a Wintec staff member. A parking permit does not guarantee a parking space but provides the right to park in any vacant designated parking space.

Vehicles may be issued a payment notice without warning due to a breach of this policy. Repeat offences or other circumstances, such as blocking an emergency access, may result in towing action, at the driver's expense.

3. Key Roles & Expectations

The following roles have key responsibilities when parking at the City and Rotokauri Campus:
